Life sciences Consultant - Brussels

Société

Alcimed SPRL

Description

Today, our Brussels' office recruits consultants to assist our Life sciences (Agrifood & Healthcare) clients in their issues.
- You will be in charge of the end-to-end completion of projects, from information-gathering to the drafting and presentation of recommendations.
- This will allow you to learn about our industries' latest issues and communicate with worldwide key opinion leaders (to gather and challenge their point of view).
- Working directly with our customers, mostly Innovation, R&D or marketing directors at major groups in Life sciences based in the Benelux (Pharmaceutical labs, Diagnostics & biomedical companies), your mission will be to create and maintain privileged professional relationships.
- You will be trained in our methodologies and benefit from ALCIMED's cumulated experience

Votre profil

- Master's degree or PhD in business, engineering or science
- Recently graduated or with initial experience
- Entrepreneurial spirit
- Passionate about Life science, marketing and innovation
- Fluent English and in French or in Dutch
- International experiences will be appreciated
- Personal Skills: Curiosity – open-minded– ambitious – interpersonal skills – rigor – team player – want to take part to the challenge of developing a fast-growing company

Notre offre

Permanent – full time contract
