

Junior IT Consultant

Société

Sopra Banking Software

Description

Train you as multi-faceted consultants, specialized in finance as well as in IT.

After a first 3 week initial training and multiple trainings concerning the banking sector, the IT Consultant will be responsible for:

- Work on the development and implementation of our “Sopra Banking Suite” software;
- Perform functional and technical analysis;
- Learn about the banking and finance industry.

Thanks to the acquired experience on various client based projects, the IT Consultant will be able to train and coach new hires in order to evolve to a function including team management and/or technical expertise.

Votre profil

- Master in Sciences or Computer Sciences, Master in Engineering, ... with maximum two years of experience;
- Interest in the finance industry;
- Team player;
- Mobile and flexible;
- Good knowledge of English.

Notre offre

- A young & dynamic environment;
- Clearly defined growth possibilities on multiple national and international projects;
- Sopra Banking University foresees trainings available throughout the entire career;
- Attractive financial package including interesting compensation & benefits such as an extended insurance package, a competitive salary and a range of employee benefits.
